

PUPPY HEALTH CARE GUARANTEE & BUYER AGREEMENT

TWO HOMES · ONE LOVING LEGACY

OUR HEALTH CARE GUARANTEE

Every Bichon Legacy puppy is raised with love, exceptional care, and lots and lots of attention. Our puppies are over-loved and underfoot! They are not raised or kept in kennels. From their earliest days, our babies are raised inside a loving home as part of a real family, surrounded by people, everyday household activities, affection, cuddles, and the sights and sounds of family life.

We believe these early experiences help our puppies grow into happy, confident, well-socialized companions who are ready to become treasured members of their new families.

As part of their early preparation, our puppies are also introduced to and trained to go in and out through a puppy door. This gives our new puppy families a helpful head start and can make the transition into continued house-training easier as they teach their new baby the routine of their forever home.

YOUR PUPPY'S HEALTH

Every Bichon Legacy puppy comes with a Health Care Guarantee as part of the Bill of Sale. At the time your puppy leaves our care, your puppy will be current on age-appropriate vaccinations and deworming according to our breeder health schedule and standards.

You will receive a puppy health record showing the vaccinations and deworming treatments your puppy has received, including the products used when available.

If a veterinary health certificate or examination is required for transportation or shipping, or if the purchaser requests an additional veterinary examination before delivery, please let us know. Any additional veterinary examination requested by the purchaser will be at the purchaser's expense unless otherwise agreed to in writing.

FIVE-DAY VETERINARY EXAMINATION

The purchaser agrees to have the puppy examined by a licensed veterinarian within five (5) calendar days from the date the purchaser, purchaser's representative, or transportation agent receives the puppy. Weekends and holidays are included. If your regular veterinarian is unavailable, the puppy should be examined by another licensed veterinarian.

If the purchaser elects not to obtain this examination within the five-day period, the purchaser understands that the protections requiring veterinary examination under this Health Care Guarantee may no longer apply. Nothing in this agreement is intended to waive or limit any non-waivable rights or remedies provided to the purchaser under applicable state or federal law.

IF A HEALTH CONDITION IS DISCOVERED

If, during the required examination, a licensed veterinarian determines that the puppy has a significant health condition or congenital defect that existed at the time of transfer and would make the puppy unsuitable as a family companion, the purchaser must contact Bichon Legacy immediately and provide written documentation from the examining veterinarian describing the diagnosis and medical findings.

After receiving and reviewing the veterinarian's documentation, and when return of the puppy is medically appropriate, the breeder and purchaser will work together toward a remedy provided under this guarantee, which may include return of the puppy and refund of the puppy's purchase price, or replacement with another available puppy of comparable value as agreed upon with the breeder.

The breeder must be given an opportunity to review the veterinary findings and, when appropriate, obtain a second veterinary opinion before a refund or replacement is made.

This guarantee applies to the purchase price of the puppy only and does not include transportation, shipping, veterinary expenses, medications, supplies, training expenses, or other costs incurred by the purchaser unless otherwise required by applicable law.

CONTINUING PUPPY CARE

We strongly recommend that every puppy continue receiving age-appropriate veterinary care and complete the veterinarian-recommended puppy vaccination and deworming schedule. Families who need access to affordable preventative veterinary services may wish to contact the Texas Coalition for Animal Protection (TCAP) or another licensed veterinary provider.

All veterinary and other expenses incurred after the puppy has been transferred to the purchaser are the purchaser's responsibility except where expressly covered by this written guarantee or applicable law.

AFTER YOUR PUPPY LEAVES OUR CARE

Once the puppy has left the breeder's care and has been accepted by the purchaser or purchaser's representative, the breeder cannot control the puppy's new environment, supervision, nutrition, exposure to other animals, training, or treatment.

Accordingly, this guarantee does not cover illnesses, injuries, behavioral problems, or other conditions resulting from accident, neglect, abuse, improper nutrition, failure to obtain appropriate veterinary care, exposure to infectious disease after transfer, or other circumstances arising from the puppy's new environment.

The breeder is not responsible for circumstances unrelated to the puppy's health, including landlord or housing restrictions, family disagreements, changes in the purchaser's personal circumstances, or allergies to animals. Except as expressly provided by this guarantee or required by applicable law, the breeder is not responsible for veterinary bills, medical expenses, property damage, incidental expenses, or other costs incurred after transfer.

WE ARE ALWAYS HERE TO HELP

Our relationship with our puppy families does not end when you take your puppy home. Your breeder will always be a source of information, encouragement, and support. We are happy to help answer questions about feeding, grooming, training, vaccinations, socialization, and adjustment to your puppy's new home. If we don't know the answer, we will do our best to help you find someone who does.

Whenever possible, we encourage families to visit us, meet their puppy, and see the loving home environment in which our puppies are raised. We want you to feel comfortable and confident that the puppy you choose is the right companion for your family.

PET-ONLY PLACEMENT — NOT FOR BREEDING

This puppy is being sold and placed as a family companion pet only and is not being sold for breeding purposes. The purchaser agrees that the puppy will not be intentionally bred or used to produce puppies. Any AKC registration or identification provided with the puppy does not change this pet-only placement unless the breeder gives separate written authorization for breeding rights.

ACCEPTANCE OF THIS GUARANTEE

By placing a deposit on a puppy, reserving a future puppy, or paying all or any portion of the purchase price, the purchaser acknowledges receiving and agreeing to the terms and conditions of this Puppy Health Care Guarantee and the accompanying Bill of Sale.

A deposit is recommended when reserving an upcoming litter so that families may have the best opportunity to select the puppy that is right for them, subject to availability and the breeder's placement policies.
